

ORDERS-MILITIA TO KEEP READY

State Troops May be Wanted at Hazelton at Any Moment.

OPERATORS ARE FIRM

Will Never Recognize the Union if the Mines Have to Remain Idle.

FIRST DISTRICT ALL ARE OUT

Seranton, Pa., Sept. 17.—[Special Telegram]—The Captains of the Thirtieth regiment have been notified to get out their men on short notice to be sent to Hazelton in case of trouble.

It is probable a formal conference of the operators will be held today to consider the situation. They are a unit in asserting they will never recognize the union preferring to allow the collieries to remain idle.

The First district is now completely tied up, the last of the collieries of Pittston closing last night.

Strike Manager Dilcher says he never saw a strike so complete on the second day. If necessary to win he will close every bituminous mine in the country.

Hazelton, Pa., Sept. 19.—[Special Telegram]—Trouble is beginning about the Markle Bros. mines at Jeddo where the union men last night succeeded in getting several hundred men to quit work in the four mines belonging to that firm. Markle says it is possible he will prevent trespass by calling on the state for troops, first calling on the coal and iron police and sheriff's posse. Markle's mine will probably lead to the issue of the military.

Call Out the Pinkertons. Wilkesbarre, Sept. 19.—[Special Telegram]—The first serious set back for the miners was the operation today of the West End mine at Moanana which has a full force. Committees could make no impression on the men going to work. The company has sent for the Pinkertons. A great number of miners are leaving for the bituminous fields about Pittsburgh.

Efforts for Arbitration. Hazelton, Pa., Sept. 19.—Archbishop Ryan of the Philadelphia Archdiocese has joined with other clergymen of the Catholic church in attempts to settle the miners' strike by arbitration. He is now making a tour of the district learning what he can of the situation, hearing the men's grievances and studying the conditions which brought about the walkout.

It is reliably stated that the possibility of arbitration being introduced soon is not remote. There are influences now at work which promise important developments within the next two days.

The Rev. Father Logue, rector of the Catholic church at Williamstown, is working among the mine employees there to induce them to stay at work.

More Collieries Shut Down. Shamokin, Pa., Sept. 19.—[Special Telegram]—Alaska, Mt. Carmel, Green Ridge and the Natalie collieries at Mount Carmel were shut down today.

STEAMERS SINK; TWENTY LOST

Collision of British and German Vessels in Cardigan Bay.

Liverpool, Sept. 19.—The British steamer Gordon Castle and the German steamer Stormarn collided in Cardigan bay Sunday night, and both vessels sank. Twenty of the persons on the Gordon Castle were lost.

The Gordon Castle was of 1,295 tons net, and was built at Glasgow in 1871. She was 307 feet long, 34.4 feet wide and 25 feet deep. She was owned by the S. S. Gordon Castle company, limited (MacLay & McIntyre of Glasgow. The Stormarn was of 355 tons net and was built at Kiel in 1880. She was 176 feet long, 25 feet wide and 15½ feet deep. She was owned by the Nord-Ostsee-Rhederei of Hamburg.

Roosevelt in Idaho. Rexburg, Idaho, Sept. 19.—[Special Telegram]—Gov. Roosevelt spoke at the opera house today. Throughout Montana he has avoided the silver issue. In Idaho his stops were made at Market Lake and Idaho Falls. Twenty-five hundred people listened to him at the latter place.

Bay State Bank Failure. Boston, Mass., Sept. 19.—[Special Telegram]—The South Danvers Bank of Peabody has been taken charge of by Comptroller of the currency. It is the oldest bank in the state.

BLACKS WIN IN SANTIAGO.

Whites of Province Become Annexationists—Parade of Victors.

Santiago de Cuba, Sept. 19.—The elections for delegates to the constitutional convention have resulted in favor of the black party throughout the entire province, and the whites now openly declare themselves to be annexationists. Ten thousand colored men, who had worked themselves up almost to a frenzy and who wore badges bearing a skull and crossbones, signifying death to the Republican party, paraded through the principal streets of the city last night, carrying tallow candles and torches. A mock funeral of the Republican party was held today and was attended by about 1,000 colored persons. The white people are cautious and are avoiding conflicts.

STEEL PLANTS RESUMING.

Mills of the American Company Ordered to Be Resumed.

Pittsburg, Sept. 19.—Oliver's South Side plant of the American Steel and Wire company has resumed operations and orders have been issued to start the Anderson plant and the rod mill of the same concern within a week. The mills have been closed since the Gates order last April. The resumption is caused by the return of confidence in the iron and steel trade and the heavy demand for wire and nails. Employment will be given to several thousand men in this district.

BRYAN IN KANSAS ROASTING HANNA

Says He Would Not Accept a Challenge for Joint Debate With the Republican Chairman.

Leavenworth, Kan., Sept. 19.—[Special Telegram]—Bryan spoke to six thousand here this morning. Questioned as to Hanna's alleged challenge to debate imperialism he said no challenge had been received by him and he would not accept if it came.

He would be glad to debate public questions with the republican candidate for the presidency but he would not be willing to debate with one whose responsibility was less. If the republican committee will certify that Hanna is the president in case of republican victory he would willingly meet him in joint debate.

As to Hanna's charge that Bryan was influenced by sinister motives in securing a ratification of the peace treaty he said: "I must confess Hanna is an expert when he discusses sinister motives. I can stand his criticism if Senator Hoar can endure his praise." Bryan says he reads Hanna's speeches when he wants something funny.

UNIVERSITY OPENS NEXT TUESDAY

Madison Assuming a More Lively Aspect—Practice for Positions on Football Team.

Madison, Sept. 19.—[Special Telegram]—The University will open on the 25th of September and the quiet of summer is rapidly giving place to the more lively aspect of a college town as the students begin to return. The first comers are largely candidates for the football team and each afternoon vigorous practice work is done on the old campus in front of the new Historical library building, under the critical eyes of Director Phil King and Captain Chamberlain.

The first game here will be with Ripon college on Sept. 29th. On Oct. 13th Madison will meet its old rival, Beloit, at Milwaukee. One of the best and hardest fought games of the season, will probably be that with Illinois University on Thanksgiving day at Madison.

Madison expects to have a fine team this year as the candidates are numerous and in good spirit and condition.

A. K. Wheeler of Janesville is student manager of the foot ball department. The new historical library building is one of the most beautiful of its kind in the United States. The president of the American Library association, who is acquainted with all the library buildings of the country, while here recently said that the large reading room of this building excelled in beauty and convenience any one he had seen. The books are nearly all moved and in place and the museum will be moved in a few days and the building will shortly be opened to the public.

A. E. Matheson had business before the Dane county circuit court yesterday.

A. H. Sheldon is at Madison attending the Dane county fair.

Howard Pleads an Alibi.

Frankfort, Ky., Sept. 19.—[Special Telegram]—The defense in the Howard trial has begun. Forty witnesses will be called. Howard took the stand and testified that he was sitting at the fire in the Board of Trade hotel when Goebel was shot. He denied the remarks attributed to him by Culton.

Mr. and Mrs. J. E. Kelly, who have been the guests of the Misses Ryan, at Oakland avenue left for Sterling, Ill., this morning.

WORD OF TERROR IN COAL REGIONS

WHAT BEING CALLED A "SCAB" MEANS TO THE MINER.

Workingmen Know That Defeat Stares Them in the Face But Still They Are Compelled to Strike With the Rest—Ideal Men Leading the Anthracite Strike.

Hazleton, Pa., Sept. 19.—If the strike can be won at all the men who are conducting it for the United Mine Workers are believed by the miners to be the men to win it. It is not alone that they have had great experience in fighting the battles of the Western miners successfully. They came past possessing the undoubted confidence in the leaders in the anthracite region. This is an enormous source of strength. Then, too, they are brainy, clear-headed, shrewd and keen judges of human nature.

Dilcher An Ideal Chief.

Dilcher is an ideal man to handle such a conglomerate mass of men as are involved in the strike. He is fully 6 feet 2 inches high, broad shouldered, stout and gifted with endless good nature. He has the faculty of getting in touch with all sorts and conditions of men. His manner is bluff and his big, round face is perpetually wreathed in smiles. His clothes bespeak the workingman.

President Mitchell is a much younger man than Dilcher. He has a calm, studious face, and a quiet, reserved manner. There are few men who are his equal in executive work and organization. It is due, principally to his capacity that the United Mine Workers have obtained the strength they hold today.

Can Be But One Result.

Those who are best informed among the friends of the men are a unit in the belief that the struggle at the outset is hopeless. Such men as Father Phillips of Hazleton and scores of others, men who are distinctly on the side of the miners, agree there can be but one outcome. The men must lose unless a miracle intervenes. The great body of the strikers themselves are aware that they cannot hope for victory.

Little Hope of Success.

"You are out with the rest?" a miner was asked last night by a newspaper man.

"Yes," he announced shortly.

"Are you going to win?"

"I don't know."

"Do you think you are going to win?"

"God knows."

"But what is the prospect?"

"Bad. The operators have millions. We haven't a cent. My last month's (August) wages are all gone. After paying my bills I haven't a cent left. And I am in debt. All I can look for is pay for my September time. That I will get early in October."

"And in the meantime how will you live?"

"I can get credit against my October pay-day all right."

"Why do you go out then? If you can't live longer than that you surely can't win."

"What would I do? Go to work in spite of the strike order?"

The man had spoken all along in a hopeless, sullen, dreary tone. At this question he lost his dreariness and turned almost fiercely.

"Yes, go to work and be a scab—a scab man. Do you want me to be a scab?"

Scab a Fatal Word

"Friend," the miner continued after a pause, "you can't know what it means to be a scab; otherwise you wouldn't ask me if I was going out under the word that 'strike' has been ordered. I'd better be dead than be a scab in this region. The name would stick to me and all belonging to me, and my children. My neighbors and all my friends would shun me; the people would go on the other side of the street when they saw me coming. My wife would be hooted. I have three children in school. I'd have to take them out. If they tried to remain their children would drive them out with cries of 'scab,' 'scab,' every minute of the day. Even the teacher would turn on them. Yes, friend, I am going to stay out."

Butte, Sept. 19.—[Special Telegram]—Gov. Roosevelt left here at two o'clock this morning for Salt Lake via Pocatello. The sentiment of the crowds at the Columbia Garden meeting last night was antagonistic to Roosevelt and the campaign committee feel correspondingly glum about Montana.

MUNICIPAL LEAGUE PROPOSES REFORM

NATIONAL SOCIETY IN SESSION AT MILWAUKEE TODAY.

Members All Stand High in the Business and Professional World—Welcomed by Gov. Scofield and Mayor Rose—Problems Affecting Wisconsin Cities Up Tonight.

Milwaukee, Sept. 19.—The sixth annual meeting of the National Municipal league opened at 2:30 o'clock this afternoon in the banquet hall of the Hotel Pfister. In the absence of President James O. All Prominent Men

They are all prominent leaders in municipal reform and most of them stand high in the business and professional world. President Carter is one of the leading lawyers of New York. Woodruff of Philadelphia is a lawyer and republican member of the Pennsylvania legislature. Treasurer George Burham, Jr., also of the Quaker City, is connected with the Baldwin Locomotive works and is very wealthy. Bird S. Coler, who will read a paper on "Commercialism in Politics," is comptroller of Greater New York.

Welcome by Mayor Rose.

At the opening meeting this afternoon Gov. Scofield and Mayor Rose delivered addresses of welcome and Charles J. Bonaparte, chairman of the executive committee of the league responded. Secretary Woodruff read a paper on "A Year's Municipal Development" and Henry F. Greene talked on "The New Duluth Charter." Mr. Greene is a prominent lawyer of Duluth. Reports of officers will be submitted and new officers elected.

The evening session which will be held at the Pabst theatre will be devoted principally to the consideration of problems affecting Wisconsin cities. President Joshua Stark of the Wisconsin Bar association will talk on "The New Municipal Program and Wisconsin Cities." John F. Burke of Milwaukee will read a paper on "Improper Influence on Legislation by Public Service Companies." Amos F. Wilder of Madison, editor of the Wisconsin State Journal, will give his views on "Primary Election Laws." Capt. I. M. Bean will preside.

ELKS "SHIRT WAIST" PARADE

Nine Hundred March in Opening At Louisville Carnival.

Louisville, Sept. 19.—Nine hundred shirt waist men in a parade was the spectacle shown by the Louisville lodge of Elks at the opening of its fall carnival here today. The garments worn were white, with three purple plaits on each side of the center. The guard of honor to the queen, led by General John B. Castleman, late brigadier general of volunteers, was uniformed entirely in purple, with white stripes on the trousers and about the cuffs. Last night at the Carnival grounds every elk shone in his white shirt waist and white cap, while the "spellers" on the midway carried purple umbrellas to shield them from the electric lights.

SOLDIER REGARDS KINDNESS

Veterans' Home Gets \$12,000 for Be-coming Supposed Tramp.

Oshkosh, Wis., Sept. 19.—The Veterans' Home at Waupaca was enriched to day by a legacy of \$12,000. It was left by Walter Houston, an aged soldier of the rebellion, who lived many years at Utica, this county, and died there. Mr. Houston bequeathed a farm of 200 acres to the home, possession to be given at the death of his widow, who is very old. Mr. Houston visited the home some time ago disguised as a tramp soldier, and he was so kindly treated that he determined to aid the institution.

SPOONER SLATED FOR THE CABINET

WILL NOT WAIT FOR TERM TO EXPIRE AS PLANNED.

He Intends to Resign as Wisconsin's United States Senator—Isaac Stevenson, the Marinette Lumberman, Said to Have Assurance of Election to Senate.

The reelection of William McKinley in November means the selection of United States Senator John C. Spooner for a position in the President's cabinet, says the Chicago Inter-Ocean. Milwaukee correspondent in the issue today. It also means, if the plans of the leading Wisconsin republicans are carried out that Isaac Stephenson of Marinette will succeed Mr. Spooner in the senate.

It will be remembered that Senator Spooner announced over his own signature, late in July, that he would not be a candidate for reelection, giving as his reasons that he had personal duties to perform that would require his attention at home, but leaving an impression that he was disgusted with the course of the political current in Wisconsin and desired to be out of it.

Reason for the Withdrawal.

The letter was written at a time when letters of withdrawal were numerous, all of the candidates for the gubernatorial nomination at this time getting out of the way and leaving the field clear for Mr. LaFollette, with whom the Senator had no sympathy. It was given out by his friends that he had been deserted or that certain leaders desired him to accept a burden of responsibility in a fight that he had nothing to do with. Mr. Spooner is a statesman, not a politician and it was all too disgusting to him to be tolerated.

His announcement that he was to withdraw and retire from public life astonished some of his closest friends, and there were expressions of regret from leaders in both the factions that then existed in the state. Both the stalwarts and the LaFollette men expressed a hope that the Senator would reconsider his determination.

Will Resign in January

It is now said that he will not wait until the end of his term, but that he will resign after Mr. LaFollette is elected governor and while the legislature is in session in January. Congressman Babcock and ex-Congressman Cook will be candidates, but it is understood that the program contemplates their retirement on an understanding with Mr. Stephenson that he will not be a candidate for re-election at the end of his short term of two years. This will leave the field open to Messrs. Babcock and Cook in 1903.

Isaac Stephenson has never had but one ambition outside of his business. He is one of the most successful lumbermen in the northwest and a millionaire several times over. His desire has been for many years past to go to the highest legislative body in the country as a representative from Wisconsin, and no man has ever tried harder than he has to accomplish his object, as the memorable incidents of the senatorial campaign of two years ago so clearly testify.

One of Mr. Stephenson's closest friends is authority for the statement that "Uncle Isaac," LaFollette, and other leaders in the harmony program will endorse Mr. Spooner for the cabinet position, so that there will be no misunderstanding.

MEANS PARTITION OF THE EMPIRE

Germany's Demand on China is an Impossible Condition.

WILL RESULT IN WAR

Uncle Sam Also Opposes Delivery of the Anti-Foreign Leaders to the Powers

CABINET CONSIDERS IT TODAY

Washington, Sept. 19.—[Special Telegram]—Minister Wu this morning laid before the state department his views in regard to the demand of Germany that the leaders of the anti-foreign movement be delivered to the powers before the negotiations are begun. The demand Wu says is an impossible condition puts a stop to the peace negotiations and is equivalent to announcing the dismemberment of the empire. The demand is evidently aimed at the Empress and Prince Tuan. If the demand is persisted in there will be no negotiations.

Problem for McKinley

Washington, Sept. 19.—When he returned to the capital this morning President McKinley found important phases of the Chinese situation awaiting his decision.

Yesterday the state department received from Berlin, through Secretary Jackson, charge in the absence of Ambassador White, the substance of the note which the German government has sent to all the powers demanding that the guilty members of the Chinese government be delivered over to the allies for punishment.

This attitude on the part of Germany has been expected for some days, having been foreshadowed in previous diplomatic communications.

Raises the Whole Question

The Berlin note raises again the whole question of the principles which are to govern an effort to negotiate a settlement of the Chinese problem, and it raises for the United States anew the question of the withdrawal of our troops, as Russia persists in declaring an intention to retire without actually doing so.

It is understood the president will endeavor during his present visit to Washington to outline a comprehensive policy and he may conclude the time has come for a decisive step one way or another. A meeting of the cabinet will be held this afternoon.

Sure to Punish Tuan.

While the United States agrees with Germany in the principal that there should be punishment of the Chinese, officials like Prince Tuan and General Yung Lu, who are known to have been guilty of instigating and perhaps of actually leading the attacks upon the legations. It is not believed the president will join with Germany in demanding that those guilty persons be delivered up to the allies for punishment.

Instead of this the United States is likely to demand that Tuan and Yung Lu be adequately punished by the Chinese government.

Person of Empress is Sacred.

Literary acceptance of the German program would require that the empress dowager herself be delivered over to the European troops in Peking and that her head be cut off to make a foreign holiday in the imperial city. There is no longer room for doubt that the empress is equally guilty with Tuan, Yung and other reactionaries, it not more guilty. Minister Conger's dispatches to the state department confirm Dr. Merriam's and other dispatches from Peking which states that the empress ordered the attacks upon the legations.

Can Be No Peace in China

But it is contended that if the powers attempt to punish her there can be no peace in China. Her person is sacred in the eyes of all Chinese. If she was harmed probably the allies would find themselves with a large task on their hands. Distasteful as it is, there seems to be no recourse for the powers but to permit her to go unpunished, unless it shall be found that it is safe to deprive her of power and restore the emperor to full possession of his authority.

This is as far as the United States cares to go, and it is not as yet certain that it is willing to go as far as that.

NEARLY ALL CROPS ARE WELL MATURED

LITTLE CHANCE THAT HEAVY
FROSTS CAN INJURE THEM.

Reports From All Parts of the State Indicate That the Yield of Corn Will Be Large and the Quality Good—Threshing Nearly Completed—A Good Tobacco Crop.

The last weather and crop bulletin of the season was issued today. It says: There was quite a wide variation in temperature during the week, the warm weather which prevailed generally until toward the end being followed Saturday night by a decided fall in temperature, amounting almost to a cold wave. Heavy frost occurred in the northern and central portions of the state on Sunday and Monday mornings, and light frosts in exposed localities in the southern section. Very little damage was done, however, as nearly all crops were fully matured.

The early part of the week was stormy although the rainfall was not excessive, except in a few localities. The tropical storm which did much damage along the Texas coast crossed Wisconsin on the 11th, causing high winds and general rains. The rains were generally heaviest in the northern and central counties and did some damage to grain, which had been blown down. Threshing and fall seeding were interfered with to some extent. In a few localities the soil is too dry for plowing, but generally there is ample moisture for present needs.

Practically the entire corn crop was matured before the frosts of Saturday, and Sunday nights. A very large portion of the crop has been cut, and with good weather the remainder will be in the shock this week. Reports from all parts of the state indicate that the yield will be large and the quality good. Some husking has been done.

Threshing is nearly completed in most sections. The wet weather damaged grain in shock and stack very materially and the yield is generally light and the quality somewhat inferior.

Second crop clover is ripe and mostly cut. The yield of seed is good.

Tobacco is practically all sowed and is curing out very nicely, with excellent color. The crop is large and the quality good.

Buckwheat is fully matured and the greater portion harvested. The yield is good.

Potatoes are being dug. In some localities the crop has been badly damaged by blight, and complaints of rotting still continue. Generally the yield will be fair.

Favorable conditions prevailed during the week and the gathering of the cranberry crop will be pushed. Reports thus far indicate that the yield will be less than last year.

EVANSVILLE WON'T LET THE FAIR GO

The Evansville Tribune speaking of the County Fair says:

"We are informed that Janesville has offered the present management one thousand dollars to take this fair to that city, which might be all well enough for them in a speculative point of view, but we doubt even that and for Evansville citizens and property owners to enter into any such an arrangement would certainly be too far against their own personal interest, saying nothing of the public to be considered for one moment and no sooner would such an arrangement be entered into in Janesville than another fair association would be organized in Evansville, possibly not as good as the present, but sufficient to still have quite a respectable fair here."

"No doubt the present management can convey the fair as their personal interests are concerned, (which they will not do,) but so far as conveying our

KICK AGAINST FREE RURAL DELIVERY

The Plan Does Not Seem to Suit All of the Residents of Indian Ford.

Indian Ford, Sept. 18.—In regard to this free mail delivery and the people who were so neatly fooled by it we wish to write the following. Those persons who were in favor of the route were told that their mail would be delivered at the door and instead of that it was put in a box at the corners and some of the farmers have a mile and a half or two miles to go for their mail and then it is liable to be stolen. We think that the person who wrote that nearly all the patrons of the Ford post office were now supplied by the free delivery, didn't know what he was talking about. There were over two hundred names on the petition to keep our office and that must include nearly all our residents and patrons.

WONDERFUL CURE OF DIARRHOEA

A Prominent Virginia Editor Had Almost Given Up, But Was Brought Back to Perfect Health by Chamberlain's Colic, Cholera and Diarrhoea Remedy—Read His Editorial.

[From the Times, Billsville, Va.]
I suffered with diarrhoea for a long time and thought I was past being cured. I had spent much time and money and suffered so much misery that I had almost decided to give up all hopes of recovery and await the result, but noticing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy and also some testimonials stating how some wonderful cures had been wrought by this remedy, I decided to try it. After taking a few doses I was entirely well of this trouble, and I wish to say further to my readers and fellow sufferers that I am a hale and hearty man today and feel as well as I ever did in my life.—O. R. Moore. Sold by Smith's Pharmacy, next to P. O., kodak agents.

Cleanest in America.

The Lackawanna Railroad is the cleanest railroad in America. Even though it cared little for the comfort of its passengers, which it does, it probably would burn hard coal, for the reason that it owns the most extensive anthracite coal mines in Pennsylvania, and it is cheaper for it to burn hard coal, which makes no smoke, than soft. At any rate, there is no smoke from its locomotives. It is built for the most part through the mountains where rock is the material easiest of access, and its road-bed for that reason is rock ballasted. There is therefore, no dust. These two things are of unusual interest to the traveler by the line, for the reason that on no other road in the United States is there stronger incentive to keep one's eyes upon the passing scene. It is said of this line truthfully that every mile is picturesque. It traverses the agricultural region of Western New York, the valley region of Central New York, the mountain region of Pennsylvania and New Jersey, and every mile offers a view that is beautiful, interesting and entrancing. In point of comfort its passengers are particularly fortunate, for, in addition to there being no smoke or dust, the cars are roomy and scrupulously clean. Sleeping cars, parlor cars and dining cars offer all the conveniences and comforts of modern travel.

For the Elkhorn fair, Sept. 18th, 19th, 20th and 21st the C. M. & St. P. R'y will run a special train on each of the above dates, leaving Janesville at 7 a. m. arriving at Elkhorn at 8:30 a. m. Returning leave Elkhorn at 5 p. m., fair grounds at 5:05 p. m., arriving in Janesville 7:40 p. m. \$1.25 for the round trip.

Sherman Leaves Mansfield.
Mansfield, Ohio, Sept. 18.—This city can no longer claim John Sherman as a citizen. Last night Sherman, accompanied by his daughter, Mrs. J. L. McCallum, her two children, and Dr. W. E. Loughbridge, left here for Washington, not to return. Sherman is in feeble health. The splendid Sherman property on Park avenue west is to be divided into lots and sold. The old Sherman home will also pass into the hands of strangers. The once great mind of the statesman is failing fast. The ex-senator was so feeble that it was not deemed advisable to inform him of the death of his sister, Mrs. Sherman Reese, which occurred recently at Lancaster, Ohio. There was a movement on foot to give Mr. Sherman a farewell reception, but it was abandoned on account of his feeble condition. Sherman's total wealth is conservatively estimated at not less than \$4,000,000.

Drying preparations simply develop dry catarrh; they dry up the secretions, which adhere to the membrane and decompose, causing a far more serious trouble than the ordinary form of catarrh. Avoid all drying inhalants, fumes, smokes and soufils and use that which cleanses, soothes and heals. Ely's Cream Balm is such a remedy and will cure catarrh or cold in the head easily and pleasantly. A trial size will be mailed for 10 cents. All druggists sell the 50c. size. Ely Brothers, 56 Warren St., N. Y. The Balm cures without pain, does not irritate or cause sneezing. It spreads itself over an irritated and angry surface, relieving immediately the painful inflammation. With Ely's Cream Balm you are armed against Nasal Catarrh and Hay Fever.

MR. BRYAN'S WARNING

"If there is anyone who believes that the gold standard is a good thing, or that it must be maintained, I warn him not to cast his vote for me because I promise him it will not be maintained in this country longer than I am able to get rid of it."—Hon. William Jennings Bryan, Knoxville, Tenn., Sept. 16, 1890.

MR. BRYAN'S REASONING.

In his latest speech of acceptance, Mr. Bryan says:

When the doctrine that the people are the only source of power is made secure from further attacks we can safely proceed to the settlement of the numerous questions which involve the domestic and economic welfare of our citizens.

Exactly, and as everyone knows that the people are now and always will be "the only source of power," let us proceed. Four years ago Mr. Bryan said the money devils were the "only source of power." Now he fears the empire. In spite of Mr. Bryan's declaration, however, the people demonstrated, in 1896, that they held the power, and showed Bryan under. His present predictions are of the same order, and will receive the same treatment. The statement that this republic is in danger of becoming an empire, is as absurd as was the statement that prosperity cannot exist without free silver. Mr. Bryan is like the man who dug the pit—he is creating an abyss into which he alone will fall.

The New York Music Trade Review is not a political organ, but a well known trade publication. Therefore the following from the July issue, is of added interest: It is not "republican luck," as some allege, which has sustained the present party in power. It is that same kind of luck which builds a successful business institution. For, after all, the United States Government is nothing more or less than a gigantic business institution, the largest of its kind in the world, and when it is ruled by correct governing principles all have confidence in it and business is good.

Mr. Bryan apologizes because the income tax plank was left out of the democratic platform, saying it was "inadvertently omitted." Such "inadvertence" is inexcusable as the income tax business was "paramounted" more or less four years ago. A poor excuse, however, is better than none.

The democratic campaigners continue to denounce the trusts, but carefully refrain from outlining any mode of procedure for their dissolution. Talk is cheap, but the democratic campaigners will have to offer a practical remedy before they make any headway.

Democracy makes a serious mistake in brazenly announcing that it has a mortgage on the German vote. Our German fellow citizens are intelligent people. They do their own thinking, and no politicians own them.

D. B. Hill, Fitchburg Tillman, Bourke

Cochran and other dyed in the wool anti-money power and anti-trust orators will speak for democracy in Wisconsin this fall. They will find it uphill work, however, to convince the intelligent Badgerites that what is, is not.

As the result of the gold standard law, 312 new banks have been formed. And if the people did not have money to deposit, there would have been no new banks. The conclusion, therefore, is plain.

When a democrat tells you that his party will abolish the trusts, you ask him how they propose to do it and note well his answer. Promises are easily made but sometimes equally hard to fulfill.

Mr. Bryan, however, is forced to admit that "the money power" is not strong enough enough to force the Pennsylvania coal miners to work when they do not want to.

A government of the slot machine syndicate, by the slot machine syndicate, and for the slot machine syndicate cannot endure forever, so let us hope for the best.

A brewery trust has been formed at La Crosse, the stockholders all being democrats. Well! Well! Well!!!

Attend the Choate-Hollister public meeting tonight and show your interest in Jamesville's advancement.

Turn the rascals out.

JEFFERSON TO BUCHANAN.

Democratic Presidents Have Favored Expansion.

It comes with a poor grace from modern so-called Democrats to oppose expansion—even island expansion—when that has been the traditional policy of the party from the days of Jefferson to the days of Buchanan.

In 1845 President Polk offered to purchase Cuba from Spain for the sum of \$100,000,000, though he had no authority from congress to make the proposal, and he certainly could not have obtained the money without such authority had Spain accepted. But the offer was refused.

Again in 1854, under the administration of President Pierce, our then ministers to England, France and Spain, who were James Buchanan, James Y. Mason and Pierre Soule, met at Ostend and issued the famous Ostend manifesto, which in effect was that if Spain should refuse to sell Cuba to the United States for \$120,000,000, "we should be justified by every law, human and divine, in wresting it from Spain if we possess the power."

This came to nothing, but in the next administration President Buchanan in three of his annual messages to congress urged that Cuba ought to be made by purchase a part of the United States. A bill for the purchase of Cuba was introduced during Buchanan's term by Senator Seward, but failed of adoption.

In both the Democratic platforms of 1860—the Breckinridge and the Douglas—there were planks favoring the annexation of Cuba.

But not only did Democratic presidents favor the annexation of Cuba, but an effort was made by President Pierce to annex Hawaii, and a treaty of annexation was made by our minister to the Hawaiian Islands, David L. Gregg. The president did not approve of some of the articles of the treaty because they provided for the immediate incorporation of the islands as an independent state in the Union. He wished to receive them as a territory, leaving the question of statehood to future determination. The negotiations subsequently failed, owing to the death of the king of the islands. Forty-four years later President McKinley successfully established the policy initiated by President Pierce.

MR. JONES EXPLAINS.

Solves the Philippine Question in Short Order.

Chairman Jones of the Democratic national committee, speaking ex officio, solves the Philippine question in a very few words. When asked the question, "Can Mr. Bryan withdraw the troops from the Philippines immediately if he is elected?" he replied, "Why not? They were ordered to the Philippines. Why can't they be ordered back? They were taken in boats. Why can't they be brought back in boats?"

The senator seems to have forgotten all about the "stable government" his party platform stands pledged to give to the islands, or perhaps he thinks the "boats" which Bryan will send to bring home the soldiers can take "stable government" over as ballast.

National duty and international obligations have no place in the chairman's simple plan. Arkansas is giving the world a new lesson in diplomacy. Before the senator concludes his duties as chairman he will discover that, while it may sometimes be difficult to raise the flag, it is a much more serious task to pull it. Retreat is more disastrous than an advance. It is complicating his work in the present campaign by pledging his candidate in such an unqualified manner to a "scuttle policy."

Democratic leaders are apparently beginning to fear that the only issue in which they can place real trust is the issue of the "trusts." It is to be hoped that for the sake of perpetuation of favor in this issue that it will be kept on ice.

A Glorious Record.

President McKinley, as the constituted representative of a great republic, has lifted the yoke of oppressive imperialism from the shoulders of \$30,000

Porto Ricans, from 1,500,000 Cubans and 10,000,000 Filipinos. He has freed more subject colonists from the tyranny of Spain than Washington delivered from the oppression of Great Britain, yet in view of these facts of history Bryan would have the country believe that it must choose between him and an emperor.

BIG CAR FERRY SINKS.

Southern Pacific's Freighters Goes Down at West Oakland.

San Francisco, Sept. 19.—The Thoroufare, the big freighter of the Southern Pacific which ferries across the bay, was sunk last night in her slip at West Oakland, and this morning the water is level with the upper deck. The men in the engine room and the coal passers in the hold had a narrow escape. There were twenty-four cars on the vessel when she sank. The accident was caused by the men who loaded the vessel putting so many heavy coal cars on one side that the water poured in through the open port holes, flooding the engine room and hold.

EATON PLEADS FOR BELOIT COLLEGE

WANTS MADISON PRESBYTERY TO HELP SUPPORT IT.

Services Today at the First Church—
Installation of Rev. Mr. Henderson
This Evening at Which the Rev.
Mr. Pence Will Talk—Some of
Those Present at the Session.

The morning session of the Presbytery of Madison opened at the Presbyterian church with Moderator Rev. J. J. Caswell of Beloit, in the chair. The morning and afternoon sessions were devoted to the general routine business of the Presbytery.

Dr. Eaton of Beloit College came before the meeting this morning and made a plea in behalf of Beloit college for the support of the Presbyterian churches. He said they had a large number of Presbyterian students in Beloit college and also had several Presbyterian professors and they had worked to secure the help of the Presbyterian churches in the support of the college. He had come up from Beloit to place this matter before the Presbytery and also presented a letter from the trustees of Beloit college relating to this matter.

His reason for making this plea was that there was no Presbyterian college in the state and it was a great work to build up a college of any importance. Afterward when he found out that Wausau and La Crosse had both made a bid for a Presbyterian college. He said he would not have appeared before the Presbytery if he had not been acquainted with the facts. The letter from the trustees of Beloit college asking that the Presbytery appoint a committee to visit Beloit and investigate the work they were doing was retained and will be acted upon at some later session.

At noon a tempting dinner was served by the ladies of the church in the church parlors and was highly enjoyed by all present.

The unfinished business of the morning was taken up at the afternoon session. The ladies will serve supper for the Presbytery at six o'clock.

This evening Rev. J. T. Henderson will be installed as pastor of the local church the services beginning at 7:30 o'clock. The Rev. Mr. Pence will deliver an address. The public is invited.

Opened Yesterday Afternoon.

The fall session of the Madison Presbytery opened with a conference in the First church late yesterday afternoon. The meeting opened with a brief devotional service led by Rev. W. J. Turner, of Prairie du Sac, after which Rev. T. T. Cresswell of Beloit conducted the discussion on the question, "Is the Y. P. S. C. E. Waning?" They discussed the question by several pastors and by Miss Fannie Jackson, state secretary of the Y. P. S. C. E., and Rev. A. C. Kempton, state president of the organization.

The evening service which was the opening of the session was quite largely attended. The sermon was preached by Rev. B. B. Bigler, of Madison.

Beloit Man for Moderator.

After the sermon and singing the Presbytery was called to order and led in prayer by Moderator George C. Lamb. A short business session followed during which Rev. T. T. Cresswell of Beloit, was elected moderator and Arthur Amy of Oregon, temporary clerk, both elections being unanimous.

Those from out of the city registered at yesterday's sessions were:

W. R. Mandelcke, Plattville, Wis.; W. J. Turner, Prairie du Sac; James M. Bain, Fort George; Edwin M. Martin, Richmond Center; Geo. C. Lamb, Lodi; Leonard Colby, Balmora; T. Cresswell, Beloit; Ernest Shinnott, Madison; T. Walker, Beresford; C. A. Adams, Cottage Grove; B. B. Bigler, Madison; Joseph Brown, Maunsliff; Arthur Amy, Oregon; L. C. Smith, Synodical Missionary; E. D. Holden, Baraboo; George W. Healy, Poyette; A. O. Gutick, Kilbourne.

HONOR OF MARGARET JACKMAN

Entertainment by Miss Elizabeth McKay and Party of Friends.

A party of about twenty young people were charmingly entertained last evening by Miss Elizabeth McKay at the home of her parents, Mr. and Mrs. George M. McKay, 51 East street south. The party was given in honor of Miss Margaret Jackman who leaves Monday to attend the State University at Madison.

The evening was spent in games and dancing and was most enjoyable to all present. Dainty refreshments were served and Wisconsin pennants presented to each guest as a souvenir. Miss Jackman in whose honor the party was given is a popular young lady and will be greatly missed by her young friends.

Public Meeting To Act in the Choate-Hollister Matter To Be Held This Evening.

The public meeting called for the purpose of devising some plan for the rebuilding of the Choate-Hollister company's plant will be held at the council chamber tonight. This concern should certainly be induced to rebuild if possible. It employed sixty hands, and was a valuable and flourishing institution. Janesville cannot afford to lose such enterprises, and the citizens should show their interest by attending the meeting.

AN ACCIDENT TO TOM MURTY

Badly Hurt While Loading Coal Buckets This Morning.

Tom Murty, a young man employed by the C. M. & St. P. R. at their co-sheds in this city, met with an accident this morning that will lay him up for some weeks. Murty was engaged in loading the coal buckets used for filling the tenders to the engines and had some trouble with the swinging bottom of one of the buckets. He took a bar and climbed up on the gangway some seven or eight feet above the lower floor and started to fix the bucket.

The gangway was wet and slippery, and in some way the bar he was using as a lever, slipped. Murty lost his footing and fell to the floor below, dislocating his hip. The company's surgeon, Dr. Joe Whiting, was called, and a message sent to the engine house for the fire patrol. The injured man was conveyed to his rooms at Watson's restaurant and made as comfortable as possible. Later he was taken to the home of his brother-in-law, Con Murphy, on North Main street.

NEW CROP TOBACCO SALES

Vernon and Crawford County Districts—Prevailing Prices.

Edgerton, Wis., Sept. 19.—The first frost of the season came Tuesday morning, but was not severe enough to injure the tobacco still standing in the fields. Only a few belated crops are now out standing and these are being hustled in and the crop is practically secured.

The buying of the new crop, which opened in Vernon county recently, has attracted many of the dealers and a lively campaign the past week. It is reported that nearly two-thirds of the acreage in that section has been contracted for at an average price of 82 cents for bundle delivery with prospect that the balance will be picked up while the rush is on. The Vernon and Crawford county section produce about 5,000 acres due to the yield from 25,000 to 30,000 cases. No buyers are reported in the other tobacco section of the state.

The most important transaction in old goods of late is the sale of the '99 packing of Helgeson & Epsteth at Virgo, 1,200 cases to Reickert & La Boule, Milwaukee leaf dealers. The shipments out of storage reach 20 carloads 900 cases from this market to all points for the week past. Something over 1,000 cases of cigar leaf were exported from New York during the same period.

Tax of Deep Waterway.

Chicago, Sept. 19.—Plans for making a twenty-two foot channel in the Mississippi river between St. Louis and the Gulf of Mexico by means of a system of dikes and reservoirs was considered at a conference held in the rooms of the drainage board here. Those present were: Trustee Frank Wenter, chairman of the committee on federal relations of the drainage board; James A. Seddon of the corps of United States engineers in charge of the Chicago district; Lyman E. Cooley and Isham Randolph, chief engineer of the drainage board. The idea is to store water during flood times in large reservoirs to be constructed along the channel. This surplus water which under present conditions goes to waste and often causes serious damage to adjacent property by overflow, would be held for use in maintaining the necessary depth in the river bed in the summer months or during the low water periods.

JOHN KELLY WON WITH CHARLEY HERR

At Fort Wayne yesterday John Kelly won with Charley Herr a stubbornly contested race of six heats, beating the sensational horse Lord Derby, of the Hamlin stables; Gayton, the crack of the Butler stables; "B. B. P." the Wisconsin champion trotter; Pilatus, and others.

John seems to have beaten McHenry at his own game, as in this race Herr was driven at easy first heat, while McHenry was out for the race from the word "go," winning two heats thereafter. It was a fight to the finish between two good horses and two skillful drivers. Congratulations to John.

QUEEN HOPES FOR PEACE.

Speech of Wilhelmina of Holland to the States General.

The Hague, Sept. 19.—The states general were reopened today by Queen Wilhelmina, who was accompanied by the queen mother. In the speech from the throne her majesty referred to the continued friendly relations with foreign countries, with the exception of China, and mentioned that the conventions of the peace conference had been ratified by almost all the powers. The queen also said:

"I hope the international bureau of the arbitration tribunal will shortly be established here and that it will fulfill the end for which it was founded, by assisting more peaceful settlement of the differences between nations, as a work of importance which cannot be too highly rated." The only direct references to the South African war and the Chinese troubles were her majesty's mention of the "two deplorable events" necessitating the presence of Netherlands warships for the protection of Hollanders.

Her majesty pronounced the finances of the country to be in a satisfactory condition, but said further taxation measures were necessary, principally to cover the cost of compulsory education.

MORE MINERS ARE NOW IDLE

The Total Number of Men Out Is 118,000.

TO TALK OF A SETTLEMENT.

Clergy Takes a Hand—Archbishop Ryan of Philadelphia at the Scene—Railroaders Forced to Be Idle—Trust Advances Coal Prices.

Hazleton, Pa., Sept. 19.—Reports received at our office from Districts Nos. 1, 7 and 9 of the anthracite coal region show there have been great accessions to the ranks of the strikers, bringing the figures to the following totals: District No. 1 (Lackawanna), 72,000; district No. 7 (Hazleton), 11,500; district No. 9 (Schuylkill), 94,500; total, 118,000. From every section of the anthracite region reports indicate that much dissatisfaction prevails among those who have up to this time failed to participate in the strike, and we confidently expect that the number at work will grow less with each succeeding day until the mines shall be completely closed.

John Mitchell, President United Mine Workers of America.

Hazleton, Pa., Sept. 19.—The miners' strike in the anthracite coal region shows that the union is making gains, but with the advocates of arbitration more determined than ever to effect a settlement.

Archbishop Ryan from Philadelphia and Father Ducey from New York came to the mining district to join other Catholic clergymen in their attempts to bring about peace.

Other priests are working among the men, all counseling order and urging upon the workers the importance of accepting minor concessions to avert the danger of a long struggle.

To this number must be added many in other lines forced into idleness by the lack of coal. The Erie and Wyoming laid off 75 per cent of its working force today, every coal engine being left cold in its roundhouse.

So far no serious clashes have been reported, the only outbreaks being unimportant brawls where little damage was done. The miners' leaders insist on the importance of good order, and no resort to violence as the best method of gaining support of the public. It is doubtful if trainmen or workers in the bituminous mines will give more than moral aid to the strikers. However, it is certain thousands of railroad employees will suffer, and this may lead to complications and a strike is not improbable later.

Probably 2,000 railway employees already have been made idle by the strike, and if the situation grows more serious some decided action is expected to aid the miners. So far a number of trades bodies have promised financial support to the coal diggers.

On the other hand, the operators in the bituminous field are giving no aid to the operators in the district.

The Philadelphia and Reading Coal and Iron company announced an increase of 25 cents a ton in the price of all sizes of coal. This is taken to presage like action by all railroads in the trust, such being the regular manner of giving notice of a general change in price by the combine.

While the men were returning from No. 3 mine they were stoned by a crowd of young men. The miners going to Jeddo were set upon and compelled to flee. To protect some of the members of his congregation employed at Highland mine the Rev. Con. Houser, pastor of the Lichuanian Church, accompanied them. They were held up on the road by strikers and obliged to turn back.

At Jeannette the men employed in the Lehigh Valley washery were driven from the works and went home. A squad of uniformed coal and iron officers was dispatched to the scene from Hazleton, but before they reached there all had dispersed and the colliery shut down. In the evening Sheriff Harvey while making a survey of the field encountered a crowd of strikers and workmen who had engaged in a fight. The sheriff dispersed the crowd by threatening to deputize men there and then to place the belligerents under arrest.

Three deputy sheriffs are accused by the labor leaders of making an assault upon two peaceable strikers at Lehigh Valley breaker No. 3, which is not running. Several Italians at Coleraine were assaulted upon their way to work this morning.

Another case of assault upon a striker is reported from Trescow, and two deputy sheriffs from McAdoo, while trying to make an arrest in a criminal case, nearly started a riot in Hazel shaft No. 1. In the confusion the prisoner made his escape.

Railroaders Will Not Strike. Cleveland, Ohio, Sept. 19.—Grand Chief P. M. Arthur of the Brotherhood of Locomotive Engineers said he did not think it likely that the engineers would refuse to haul anthracite coal mined by non-union miners.

ALL IS QUIET AT MINES. Big Coal Strike Shows Workers Ranks Unbroken. Hazleton, Pa., Sept. 19.—The second day of the anthracite coal miners' strike began very quietly in this district. What little change there was in the situation this morning was in favor of the striking miners. As far as reports have been received from all parts of the region there was not one break in the ranks of the strikers, and many mines there were fewer men working than on yesterday. Some of the collieries are so short of men that it is doubtful if they can continue work during the entire day.

Every official connected with the United Mine Workers now in the district, with the exception of President Mitchell, started out before 6 o'clock this morning for picket duty at various collieries. All had returned to headquarters by 8 o'clock and reported that they had been successful in inducing men to stay away from various workings.

A number of the leaders also reported that several of the mines are being guarded by watchmen to prevent union men from attempting to induce nonunion strikers to quit work.

There is no change in the strike situation in the Wyoming valley. All the collieries that were compelled to suspend operations are idle. The companies had steam up at some of the mines ready to start the machinery, but the men did not put in an appearance.

The United Mine Workers had watchers in the vicinity of every colliery to see if any miners reported for work. The Lehigh and Wilkesbarre Coal company have a small washery in operation employing about twelve company hands. The colliery at Moacanqua, operated by the West End Coal company, which was in operation, started up again with a full force of men. The United Mine Workers have tried hard to get the men at this colliery to join them, but so far without success. It is the only mine in this district that is working.

FREEDOM FOR FILIPINOS.

President McKinley's Message to the Commission.

Washington, Sept. 19.—The chief features of President McKinley's instructions to the Philippine commission, dated April 7 last, just made public are that the Philippines are to be given self government, and Americans shall not be chosen to even appointive offices there while natives prove capable. Free public schools are to be opened as rapidly as possible.

The military and civic power of the United States are to be gradually withdrawn so that in time the Filipinos will enjoy the same form of self-government as Cuba. In the meantime he says to the commission: "In dealing with the uncivilized tribes of the islands the commission should adopt the same course followed by congress in permitting the tribes of our North American Indians to maintain their tribal organization and government, and under which many of those tribes are now living in peace and contentment, surrounded by a civilization to which they are unable or unwilling to conform. Such tribal governments should, however, be subjected to wise and firm regulation, and, without undue or petty interference, constant and active effort should be exercised to prevent barbarous practices and introduce civilized customs."

"Upon all officers and employees of the United States, both civil and military, should be impressed a sense of duty to observe not merely the material but the personal and social rights of the people of the islands, and to treat them with the same courtesy and respect for their personal dignity which the people of the United States are accustomed to require from each other."

"The articles of capitulation of the city of Manila on the 13th of August, 1898, concluded with these words: 'This city, its inhabitants, its churches and religious worship, its educational establishments, and its private property of all descriptions are placed under the special safeguard of the faith and honor of the American army.'"

"I believe that this pledge has been faithfully kept. As high and sacred an obligation rests upon the government of the United States to give protection for property and life, civil and religious freedom, and wise, firm and unselfish guidance in the paths of peace and prosperity to all the people of the Philippine Islands. I charge this commission to labor for the full performance of this obligation, which concerns the honor and conscience of their country, in the firm hope that through their labors all the inhabitants of the Philippine Islands may come to look back with gratitude to the day when God gave victory to American arms at Manila and set their land under the sovereignty of the people of the United States."

Howard May Prove an Abrid.

Frankfort, Ky., Sept. 19.—The prosecution has concluded its direct testimony in the case of James Howard. The defendant will take the stand in his own behalf. He claims an alibi, and the attorneys for the defense say they will bring overwhelming proof that Howard was standing in front of the Board of Trade hotel, two squares away from the scene of the tragedy, when the shooting of William Goebel occurred.

Germany's Attitude Toward China Defined.

ATONEMENT SHOULD BE MADE

Surrender of Guilty Ones by Peking Government Insisted On—Note Embodying the Demands Sent to the Powers—Diplomatic Relations.

Berlin, Sept. 19.—Germany stands firm for stern vengeance on the Chinese leaders responsible for the butcheries of Christians. In a circular issued by the foreign office to all the powers the attitude of the government is set forth in unequivocal terms.

The Germans demand that as an indispensable preliminary to the beginning of peace negotiations with China the Boxer leaders at whose instance the outrages were committed must be delivered up to representatives of the powers for trial and punishment.

The text of the note, which was deemed so urgent and important that it was telegraphed to the European governments as soon as drawn, is as follows:

"The government of the emperor holds as preliminary to entering upon diplomatic relations with the Chinese government that those persons must be delivered up who have been proved to be the original and real instigators of the outrages against international law which have occurred at Peking. The number of those who were merely instruments in carrying out the outrages is too great. Wholesale executions would be contrary to the civilized conscience and the circumstances of such a group of leaders cannot be completely ascertained. But a few whose guilt is notorious should be delivered up and punished. The representatives of the powers at Peking are in a position to give or bring forward convincing evidence. Less importance attaches to the number punished than to their character as chief instigators and leaders."

"The government believes it can count on the unanimity of all the cabinets in regard to this point, inasmuch as indifference to the idea of just atonement would be equivalent to indifference to a repetition of the crime. The government proposes, therefore, that the cabinets concerned should instruct their representatives at Peking to indicate those leading Chinese personages from whose guilt in instigating or perpetrating outrages all doubt is excluded."

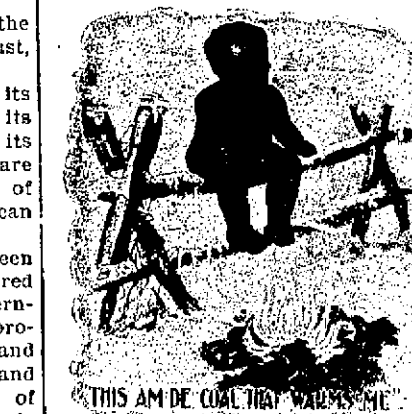

The note has been sent to the German embassies at Washington, London, Paris, St. Petersburg, Rome, Vienna and Tokio.

WINE OF CARDUI

THE LINK THAT BINDS.

JACKSON, TENN., Nov. 29. I was subject to miscarriage for three years, and suffered constantly with backache. I wrote to you for advice, and after using three bottles of Wine of Cardui, according to your directions, I am strong and well, and the mother of a fine girl baby.

Mrs. E. N. JOWERS.

Wine of Cardui

There is no use talking—a baby in the house is the link that binds husband and wife together. Nothing is sadder than fruitless wedlock. The prattling and cooing of the little ones offset a thousand times the occasional worries and trials of life. When a wife is barren, there is a derangement somewhere in the genital organs, caused by one or more of those common disorders known as "female troubles". Wine of Cardui is the remedy. It puts the organs of generation in a strong and healthy condition, fitting the wife for the sacred duty of reproducing her kind. During the period of gestation the entire system of the expectant mother is built up to withstand the ordeal of labor, and when the little one makes its advent it is lusty and strong, well-fitted to grow to maturity in perfect health. The mother, too, passes through the trial with little pain and no dread. Wine of Cardui is truly a wonderful medicine for women.

DEAD ARE FOUND IN HEAPS.

Searchers Get 200 Bodies in a Galveston Block.

BODIES CARRIED IN SACKS.

Negroes Imposing on Relief Committee—Carpenters at Work—Supplies and Money Poor In, but the Destitution Is Still Great.

Galveston, Tex., Sept. 19.—Over 200 bodies have been found in clearing two blocks of debris on the beach side. The sight was ghastly. It was impossible to remove the bodies to the place of incineration without resorting to sacks, owing to the fact that whenever attempts were made to move them by the limbs they were so decomposed that the members tear from the trunk under the weight of the body.

The weather is very hot, many horses being sunstruck, but there are no deaths of human beings. Carpenters and skilled mechanics from the outside are arriving in large numbers and are all engaged in repairing damaged houses.

It is probable that extreme measures will have to be resorted to to keep the negroes from imposing on the relief committee. All negroes that have been found with more food than they are entitled to have been severely punished. Hereafter separate relief depots are to be provided for the different races. This is made necessary by the blacks continually crowding out the whites.

There is sufficient food and clothing arriving to prevent suffering, but from 10,000 to 15,000 persons are destitute. Nearly all the business houses that did have their buildings wrecked have resumed. In the opinion of outside newspaper men who arrived today the damage is underestimated.

General Scurry will cause all families living one block from the debris on the beach to move on account of the stench from decomposing bodies. He says the work of clearing the debris has progressed 25 per cent.

COUNTING THE DEAD.

Estimate of the Total Based on the Identified.

Galveston, Texas, Sept. 19.—Those killed in Galveston during the great storm number 4,178; unidentified dead recovered, 200; estimated number of missing, 2,000. Grand total, 6,478. There are also 300 lives lost on the mainland.

Laborers are still scarce and Gen. Scurry said this morning that he could give employment to several thousand men.

A few merchants from other places have immediately found work. Many architects and contractors are preparing plans for new buildings and other improvements.

Building material is needed, but its delivery is necessarily slow, owing to the lack of rail communication with the mainland.

There are still many pitiable cases of destitution. Many half-demented persons positively refuse to leave their wrecked homes and as persistently refuse to accept offers of relief extended them. In several instances parents who have lost children, still occupy ruins of their former home and the surroundings have brought them to a state of mental and physical collapse.

The number who have gone insane as a result of their experience will probably never be known. In every lot of refugees sent out of the stricken city there have been some insane men and women. The victims first make light of their losses, and laugh immoderately when telling of the death of relatives in the flood. It is a quick step from this to uncontrollable madness.

GALVESTON SEES HOPE.

Order Comes from Chaos and Citizens Are Planning Their Future.

Galveston, Tex., Sept. 19.—"The situation continues to improve," is what one is told now at the various headquarters. Work has been brought down to a business basis as far as possible, and the amount of system and order displayed in the various departments would furnish cause for considerable surprise to any one who might return to Galveston after an absence of three or four days.

Supplies and money are pouring in from all over the country. The committee in charge having refrained from making public the exact amount of cash received so far, but at least seven figures are needed to express the total. This is being used judiciously, so far as can be observed, and the good effect of the presence of such relief fund in the city is apparent.

The militia companies have been doing splendid work, and many of the men are now of the belief that they should now be allowed to return to their homes and troops sent from other parts of the state to fill their places.

Reluctantly one is forced to the opinion that the number, 5,000 dead, is too low, and that the number will go as high as 6,000 and perhaps even above. The identified dead will reach the total of 4,437, with the additions sent out this morning. Morgan Mann states that in his opinion the list will go as high as 7,000.

False Report of Disaster.

Beaumont, Texas, Sept. 19.—The reported destruction of High Island with great loss of life is erroneous.

A Word to Mothers.

Mothers of children affected with croup or a severe cold need not hesitate to administer Chamberlain's Cough Remedy. It contains no opiate nor narcotic in any form and may be given as confidently to the babe as to an adult. The great success that has attended its use in the treatment of colds and croup has won for it the approval and praise it has received throughout the United States and in many foreign lands. For sale by Smith's pharmacy next to post office. Kodak agents.

Actresses Killed by Gas.

Paterson, N. J., Sept. 19.—Lizzie Hamilton and Grace Hughes, members of the Victoria Burlesquers, a New York company playing a week's engagement at the Bijou theater in this city, were asphyxiated by escaping gas in a room in the theater building. The girls, who were both young and pretty, retired in high spirits, the happiest of a merry party which had been to lunch after the performance. Their bodies were discovered when a member of the company, Minnie Desmond, went to call them.

CATARRH

Catarrh has become such a common disease that a person entirely free from this disgusting complaint is seldom met with. It is customary to speak of Catarrh as nothing more serious than a bad cold, a simple inflammation of the nose and throat. It is, in fact, a complicated and very dangerous disease; if not at first, it very soon becomes so.

The blood is quickly contaminated by the foul secretions, and the poison through the general circulation is carried to all parts of the system.

Salves, washes and sprays are unsatisfactory and disappointing, because they do not reach the seat of the trouble. S. S. S. does. It cleanses the blood of the poison and eliminates from the system all catarrhal secretions, and thus cures thoroughly and permanently the worst cases.

Mr. P. H. McAllister, of Harrodsburg, Ky., writes: "Having been a terrible sufferer from Catarrh, and being now sound and well, the question often put to me is, 'What cured you?' In answer I feel it my duty to state that S. S. S. is the medicine. I am such a true believer in the efficacy of Swift's Specific that I can honestly and conscientiously recommend it to any one suffering from Catarrh. Have recommended it to many, and am happy to say that those whom I have induced to use it can bear me out in the statement that it will cure any case of Catarrh if taken according to directions."

SSS is the only purely vegetable blood purifier known, and the greatest of all blood medicines and tonics.

If you have Catarrh don't wait until it becomes deep-seated and chronic, but begin at once the use of S. S. S., and send for our book on blood and skin diseases and write our physicians about your case.

BROOKLINE

It is most essential in the purchase of a pair of high grade Shoes, to know the "reputation" and "reliability" of the makers. When the name of

Is upon the strap of a Shoe it means that 25 years of patience and energy have been expended in the production of such footwear—that no better "pedigree" can be desired.

We have just received our fall styles...

And would be pleased to show them to you. After you once wear these Shoes you will wear no others. There are more of these Shoes worn in Janesville than all other so-called high grade Shoes put together. If you are not wearing these Shoes try a pair now.
